

ANKIT

SOFTWARE ENGINEER | LIMS & HEALTHCARE IT SPECIALIST

New Delhi, India, 110096 • +91-8574518136 • ankitkanaujia8@gmail.com • linkedin.com/in/ankit-8986a3196

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience specializing in Healthcare IT systems, Laboratory Information Management Systems (LIMS), software deployment, and server configuration. Skilled in lab machine interfacing, custom EXE application development, and technical support. Proven track record in workflow optimization, cross-regional project execution, and stakeholder coordination across physical, local, and cloud environments.

TECHNICAL SKILLS

Languages:	Java, Python, C++, Android
Healthcare & IT Systems:	LIMS Integration, Hospital Information Systems (HIS), Machine Interfacing, Gap Analysis, Workflow Design
Databases & Tools:	SQL, MySQL, Power BI, JIRA, Mantis, Visual Studio Code
Infrastructure & Networks:	Server Configuration (Local, Physical, Cloud), Network Routing & Switching, Application Deployment, Data Backup
Certifications:	Certificate in Networking

PROFESSIONAL EXPERIENCE

Itdose Infosystems Pvt. Ltd. — *New Delhi, India*

04/2022 – Present

Sr. Functional Engineer (Software Engineer)

- Led end-to-end development & deployment of custom Laboratory Machine Software (EXE) for automated data capture across client locations in India and internationally.
- Configured local, physical, and cloud servers supporting high-availability LIMS and HIS operations, ensuring data reliability and uptime.
- Managed lab machine interfacing across all departments to stream diagnostic machine data seamlessly into LIMS software.
- Provided post-implementation technical support (on-site and remote) for rapid incident resolution and post-deployment stability.
- Coordinated with cross-functional teams and stakeholders to align project scope and optimize operational workflows.

Kaizen IT Services Pvt. Ltd. (*Deputed at Central Board of Direct Taxes*)

06/2021 – 04/2022

Technical Support Engineer

- Delivered technical support for core departmental software applications, including ITBA, Insight, and e-filing systems.
- Installed, configured, and troubleshoot network devices (switches/routers) and software packages in the CBDT enterprise environment.
- Executed daily data backup protocols to protect operational data integrity and guarantee rapid disaster recovery.
- Supported testing (UAT) and deployment of new software updates across enterprise networks.

KEY PROJECTS

Remote Client-Server Application

- Engineered a real-time remote desktop controller featuring mouse/keyboard event handling and continuous screen frame streaming using socket programming in Java/Python.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering (70.26%) — Kanpur Institute of Technology | 2019

Senior Secondary (12th Class) (75.00%) | Secondary (10th Class) (74.00%) — Kendriya Vidyalaya No. 2 AFS Chakeri, Kanpur
